

# Samples

All samples are preinstalled in your Reeti in `/home/reeti/Devel/Samples/`

To recompile samples, refer to README in each sample.

To use IDE (eclipse or Qcreator) : [Use pre installed IDEs](#)

If you don't have a Reeti you can download samples for Reeti V2 from Bitbucket git repository : <https://bitbucket.org/reeti>

You will find samples for :

- [Urbi Script](#)
- [C++ Urbi Module](#)
- [C++ Urbi clients](#) (Standalone applications)
- [Java Urbi clients](#) (Standalone applications)

For examples and instructions about video streams refer to this page : [Use Reeti Video](#)

You can also refer to UCamera Reeti Urbi module source code here : [UCamera source code](#)
