

Update Reeti

Reeti v2

1. Connect Reeti to internet : wired connection (RJ45 plug under Reeti) or wiFi (use Ubuntu wiFi menu)
2. Press the update button in the Reeti interface top bar
Alternative method using the Ubuntu terminal :

- `sudo apt-get update`
- `sudo apt-get dist-upgrade`

Reeti v1

The repository url changed. Apply the following procedure to access to the updates :

1. open the file `/etc/apt/sources.list` (using root access)
2. change all references to <http://92.243.0.162> to <http://repo-v1.reeti.fr>
3. apply updates : use the update button in the launcher, or in a terminal (`sudo apt-get update` then `sudo apt-get dist-upgrade`)
